

Atmosphere academy

2026-2027 SCHOOL PROFILE

WHO WE ARE

Atmosphere Academy is a public charter school located in The Bronx, New York. Founded in 2015 with only 120 students in grade 6, we now currently serve almost 1600 students in grades 6 through 12. Our high school opened with grades 9 and 10 in Fall, 2022, with the Class of 2026 comprised of the first scholars who are completing our high school program starting in 9th grade. Our rapid expansion and growth has been due in part to the experiences we offer our students. As the school mission states, we believe in exposure to experiential learning in order to build scholar capacity for college and career opportunities.

After years of comprehensive exploration and exposure to multiple career pathways in middle and high school, our 11th and 12th graders participate in hands-on learning and internships. Rich learning experiences support our scholars and afford them introduction to experience and expectations of their professional pursuits

Careers internship partners include Avison Young Commercial Real Estate, Academy of Aviation, Yonkers Police Dept., Mt. Sinai Medical Center, Pace University, Bronx County Courthouse and many more.

VISION

Atmosphere Academy creates just that - an atmosphere for learning by fostering a school environment that is supportive, aspirational and rigorous. Within this setting, we promote the character, skills and knowledge that scholars need to be collaborative leaders who think critically and creatively. Atmosphere is able to facilitate these outcomes for all students.

MISSION

Through the creation of a highly engaging school setting, Atmosphere Academy not only prepares students to be ready for college and career aspirations, but also for success once they get there. By actively contributing to the school's shared learning community, Atmosphere scholars will acquire the character, skills, and knowledge they need to think, collaborate, and lead.
